Dear Ms. Fisher:

The Department of Environmental Protection (Department) has reviewed the November 23, 2016 document titled "Groundwater Human Health Risk Assessment" (report) for the property referenced above. The report was prepared by New Fields and Groundwater Sciences, Inc., submitted to the Department in accordance with the Land Recycling and Environmental Remediation Standards Act (Act 2), and constitutes a Risk Assessment Report as defined in Chapter 3. This report was reviewed by a licensed professional geologist.

The Department hereby approves the Risk Assessment Report in accordance with the provisions of Act 2. Please contact Pamela Trowbridge, P.G. at 717.705.4839 with any questions or if further clarification is needed regarding this matter.

Please note that since the site is enrolled in the One Cleanup Program the U.S. Environmental Protection Agency (EPA) is also reviewing this report. Since the EPA was unable to meet DEP's regulatory review timeframe, it is possible that EPA comments on the reports may need to be addressed.

Sincerely,

A handwritten signature in black ink, appearing to read "Ben Stone-Thonus".
