

FORM C
GROUNDWATER USE ASSESSMENT FOR fYNOP ANNUAL POST-REMEDIALTION
CARE PLAN ACTIVITIES

This form is used to document the results of annual post-remediation care activities for engineering and institutional controls at the Former York Naval Ordnance Plant (fYNOP) in York, Pennsylvania. These activities are to be performed in accordance with the procedures in the approved Pennsylvania Land Recycling and Environmental Remediation Standards Act (Act 2) Final Report and Post-Remediation Care Plan (PRCP) contained in Appendix J of the Final Report.

The activities covered by this form include reviewing available public records to identify potential changes to groundwater use and communicating with the local water supplier to confirm non-use of groundwater in accordance with Section 4.1.2 in the PRCP.

Records Review Information

Company that reviewed records: Groundwater Sciences Corporation (GSC).

Describe the records reviewed, date the records were obtained, and the procedure used to review records:

On November 19, 2025, GSC reviewed well and spring records for Land Use Areas (LUAs) 1 through 6 shown on Figure 1 to fulfill the requirement to confirm no changes to groundwater use in the PRCP assessment area. These data are contained in the Pennsylvania Groundwater Information System (PaGWIS) database maintained by the Pennsylvania Department of Conservation and Natural Resources Bureau of Geological Survey.

Data downloaded from PaGWIS for the records review are provided on Table 1. The review identified data for 180 well locations within the PRCP assessment area. The locations and the corresponding identification numbers from Table 1 are shown on Figure 2, except for wells that were listed as abandoned.

As shown on Table 1, 56 of the 180 locations were previously identified by the PaGWIS search performed on January 27, 2014. Information for these 56 wells is discussed in the Updated Water Use Survey Report for fYNOP dated September 2018. The other 124 new locations were identified with well uses of observation, monitoring, and abandoned. Consistent with the procedures used in the 2018 Water Use Survey, only water supply/withdrawal wells were considered, and observation, monitoring, and abandoned wells were eliminated from evaluation. No new water supply/withdrawal wells were identified by the 2025 records review.

Did the records review identify water supply wells or springs that are used in LUA 1 through 6?

☒ No.

☐ Yes. If yes, describe the water use and identify the location(s) on a figure.

Tables and figures from the records review are provided in Attachment A.

Local Water Supplier Information

Describe communication with the local water supplier:

On November 20, 2025, GSC requested confirmation from The York Water Company (YWC) that they do not have water supply wells operating in the PRCP assessment area. On November 21, 2025, YWC informed GSC that they neither operate nor plan to develop wells in the assessment area.

Did communication with the local water provider confirm their non-use of groundwater in LUA 1 through 6?

☒ Yes.

☐ No. If no, describe the use of groundwater and identify the location on a figure.

A copy of the correspondence with YWC is included in Attachment B.

56	171	180	Total Number of Wells Identified											

NOTES
Information for wells identified by the January 27, 2014, PaGWIs search is discussed in the Updated Water Use Survey Report for fYNOP dated September 2018.
Wells designated by PaGWIS for industrial water use are not being used as a water source.
✔ - Well was identified by PaGWIS database search on this date.
✖ - Well was not identified by PaGWIS database search on this date.
(1) - Information not included in PaGWIS database search.
(2) - Well 165079 was inadvertently included twice in both the 2014 and 2024 searches. Consequently, the total number of wells reported for these searches has been adjusted to exclude the duplicate entry.

York, PA 17401

Re: *Groundwater Use Assessment*
Former York Naval Ordnance Plant (fYNOP)
1425 Eden Road, York, PA 17402

Dear Mr. Crawshaw:

Annual assessment of groundwater use is a component of the Pennsylvania Department of Environmental Protection (PADEP)-approved Land Recycling and Environmental Remediation Standards Act (Act 2) Final Report and Post-Remediation Care Plan (PRCP) for the Former York Naval Ordnance Plant (fYNOP). The assessment consists of communicating with the local water provider and requesting confirmation that it does not use groundwater for potable purposes in the area shown on Figure 1 (attached). To fulfill the requirements of the PRCP, the fYNOP Remediation Team requests that you respond to this letter in writing, within 15 calendar days of receipt, confirming that The York Water Company is not currently operating water supply wells in the assessment area.

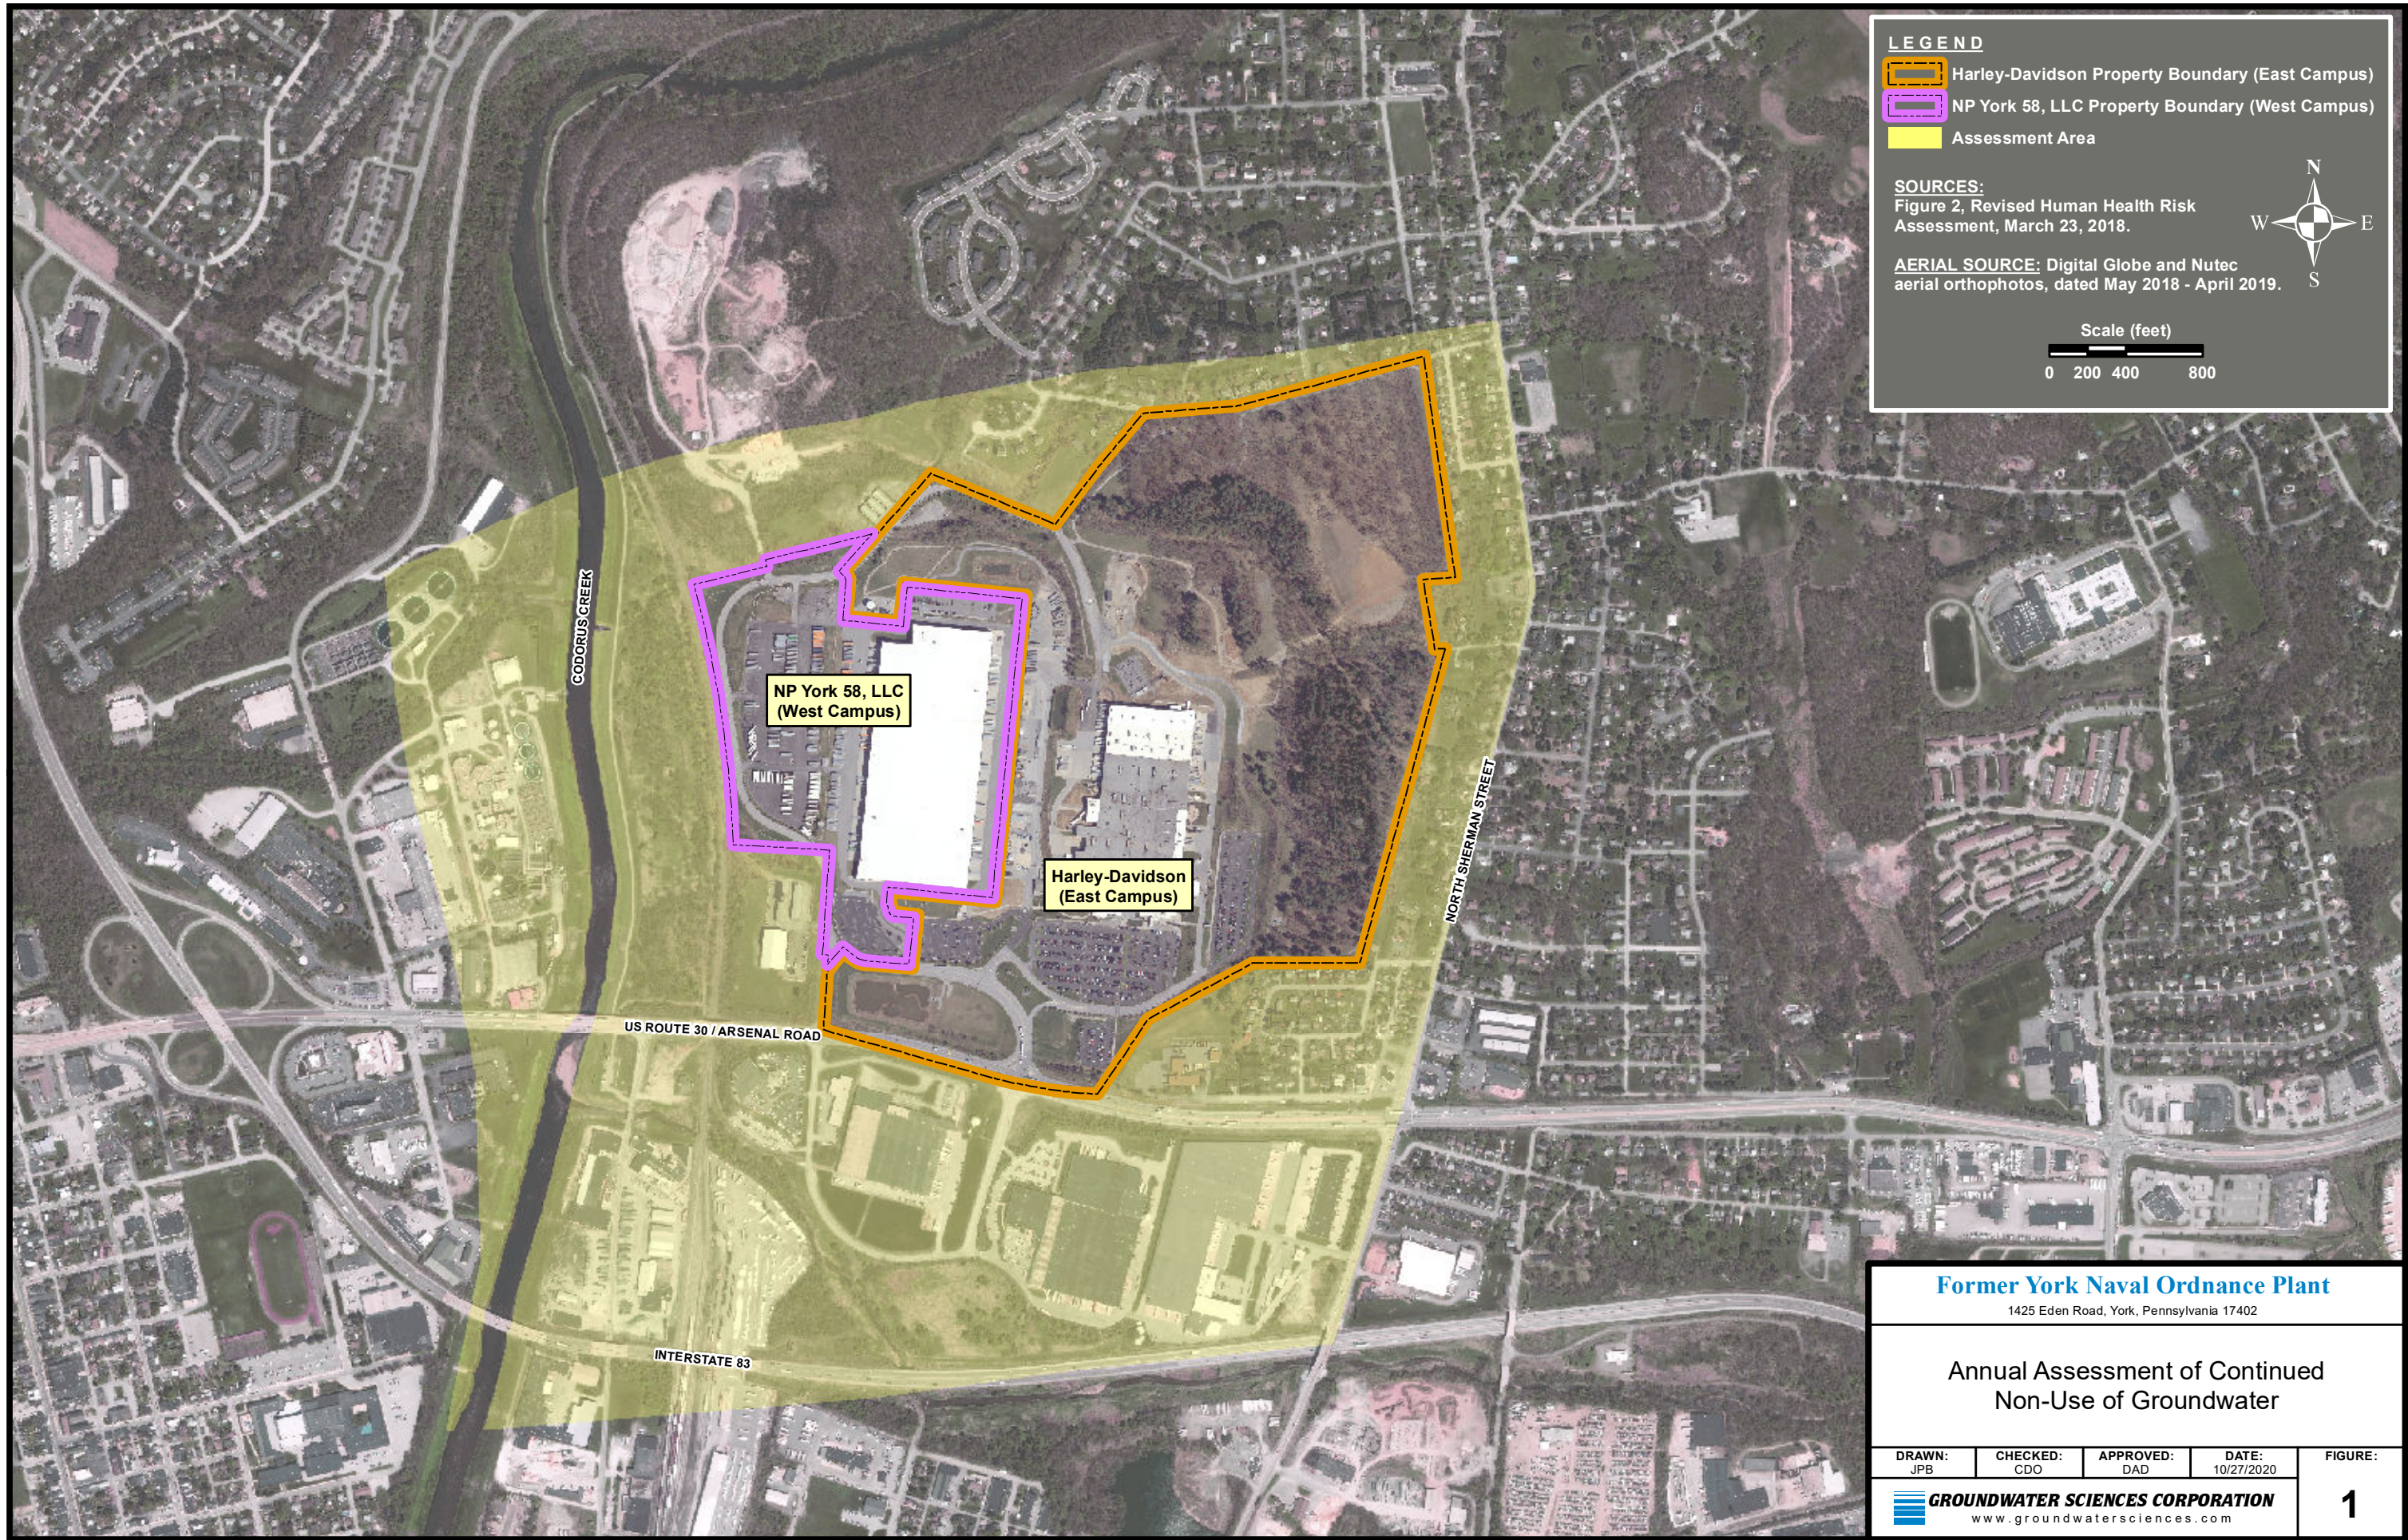

If you have questions regarding this request, please contact me at (717) 756-1246 or coneil@verdantas.com.

Respectfully submitted,
GROUNDWATER SCIENCES CORPORATION

Hello Christopher,

I have received your letter dated November 20, 2025, regarding groundwater use assessment at the fYNOP at 1425 Eden Road, York, PA 17402 and surrounding areas delineated on the included map. The York Water Company does not operate any wells in or near the aforementioned area. York water will not develop wells in or near that area due to the potential contamination risk.

Future letters should be directed to my attention and email communications should include the three individuals cc'd above.

Regards,
Doug

Hi Doug,

The annual groundwater use assessment letter is attached. A paper copy will arrive tomorrow. I would appreciate it if you could respond to this request as you did last year.

Thank you.
