Dear Ms. Fisher:

The “Supplemental Remedial Investigation Groundwater Report (Part 1)” submitted on November 7, 2011, pertaining to the subject site, has been approved by the Department of Environmental Protection (Department) in accordance with the provisions of the Land Recycling and Environmental Remediation Standards Act (Act 2). This report was reviewed by a Pennsylvania licensed professional geologist.

The Department concurs with the recommendations provided in Section 8.7 of the above referenced report. Further horizontal vertical characterization is needed to determine if there are open pathways for contamination to reach receptors. We also concur with the recommendations provided by the Environmental Protection Agency in their review letter of February 2, 2012.

We look forward to working with you towards the remediation of your site and to receipt of subsequent Act 2 reports. Please contact Pamela S. Trowbridge, P.G. at 717.705.4839 if you need any additional information regarding this matter.

Sincerely,

Kathleen G. Horvath, P.G.
