Re: EPA review and approval of Supplemental Remedial Investigation Groundwater Report (Part 2), former York Naval Ordnance Plant (fYNOP), dated August 2016, revised March 2018

Dear Mr. Snyder:

This letter is in response to Part 2 of the Supplemental Remedial Investigation Groundwater Report, dated August 2016, revised March 2018, and prepared by Groundwater Sciences Corporation. This revision addresses EPA comments provided in a January 27, 2017 letter. As agreed with you in a November 1, 2017 email, EPA comment numbers 6, 7, 8, 9, 11, 12, 13, and 14 would not be addressed in this revision, but would be addressed in a subsequent report incorporating new data obtained from the additional work conducted in the South Property Boundary Area (SPBA).

EPA has reviewed and hereby approves this report, with the understanding that the remaining EPA comments listed above will be addressed in the upcoming SPBA report.

Thank you for your cooperation in working with EPA and PADEP in the remediation of this site. If you have any questions, please don't hesitate to call me at (215) 814-3407.

Sincerely,

A handwritten signature in blue ink, appearing to read "Griff Miller".
