Re: Final Work Plan Scoping Document—Building 51 <90 Day Hazardous Waste Storage Area Closure
Harley-Davidson Motor Company
EPA ID # PAD001633691
Springettsbury Township, York County

Dear Ms. Fisher:

On November 23, 2010, Lisa Wilt, David Richard, and Lucas Swanger met with you, Steve Yankay from EA Engineering, Science and Technology, and Rodney Myers from SAIC to inspect the closure of Building 51 and to discuss the change in closure plans from what was approved by the Department in 2006 for that building. You indicated that the closure plan was essentially the same except the building is planned to be demolished and not reused as previously thought. Keeping with this, the original plan called for power washing the remaining surfaces and replacing the flooring, both of which are now being removed from the plan. The testing of the area for any contamination of soil will be done as the plan stated and once the soil under the flooring has been determined to be clean the area will be back-filled with gravel.

The Department has no issues with this change of plans. If you have any questions, please contact me at 717-705-4910. Thank you.

Sincerely,

Lisa Wilt
Residual and Hazardous Waste Coordinator
Waste Management Program
